WORKING HAND-IN-GLOVE WITH MANCHESTER'S FACILITIES TEAM

Aramark's Energy Program achieved nearly \$900,000 in annual energy savings in the fiscal year of 2013 versus the baseline of fiscal year 2010.

- Nearly \$2,000,000 was invested in the City building's energy system infrastructure including:
 - New heating boilers at City Hall and Central Library
 - Nearly \$400,000 invested in upgrades to the City building automation system reduced energy costs, improved comfort and in many instances, improved the operability of the systems which optimize City operator productivity
 - A total of over 130 individual energy conservation measures implemented over an 18-month span
- With annual energy savings nearing \$900,000, the City attained an ROI of over 30% on the funds it invested in Aramark's Energy Program
- Received nearly \$170,000 in utility rebates and an additional \$38,000 in **Pay for Performance** rebates.
- The number of Manchester schools achieving the EPA's **Energy Star** rating increased from one to sixteen under Aramark's Energy Program
- Aramark's administration and authoring of the Energy Newsletter and Manchester Sustainability website increased the level of energy conservation communication with the School District and throughout the City
