- 2021 & 2022 ENERGY STAR - Partner of the Year. First company in nine years to receive ENERGY STAR Corporate Commitment Award from US EPA.
- 2023 - Second Partner of the Year Award for Energy Management.

## Innovative Solutions

### Savings and Efficiencies

- Reduce your energy consumption and costs through a self-funded program with immediate and ongoing cash flow.
- Reinvest energy savings to fund the replacement of aged building systems and equipment.
- Develop a well-trained staff capable of identifying and reducing waste and improving system reliability.

### Reduce Environmental Footprint

- Improve your carbon footprint by reducing greenhouse gas emissions.
- Engage entire community in energy conservation practices.
